

NABO AFRICA MONEY MARKET FUND USD
Managed By Nabo Capital Limited

KEY INVESTOR INFORMATION DOCUMENT

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision and whether to invest.

OBJECTIVES AND INVESTMENT POLICY STATEMENT

Investment Objective

To maximize current income and achieve a competitive level of return in the reference currency and a high degree of liquidity by investing in USD denominated short-term fixed and floating rate debt securities.

Investment Policy

The Sub-Fund will only invest in interest-earning money market instruments which have a maximum average tenor of eighteen months and includes credit rated or guaranteed commercial papers, government securities, call deposits, certificate of deposit including fixed deposits in commercial banks and deposit taking institutions and any other like instruments as specified by the Central Bank of Kenya from time to time.

RISK AND REWARD PROFILE

Why is this Fund in Category 2?

This Fund operates by pooling investor's assets across a number of high-quality money market instruments, aiming for high levels of security and liquidity while seeking a competitive yield. Because the Fund's underlying investments are in the short-term securities, the risk to investors' capital is generally lower than investments in longer term bonds.

What do these numbers mean?

They rate how a fund might behave and how much risk there is to your capital. Generally, the chance to make large gains means a risk of suffering large losses.

A **Category 1** funds is not a risk-free investment – the risk of losing your money is small, but the chance of making gains is also limited. With a **Category 7** fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex (for example, 2 is not twice as risky as 1.)

More about this rating

This rating system is based on the average fluctuations of the prices of funds over the past 5 years, that is, by how much the value of their assets taken together has moved up and down. Historical data, such as used in calculating the synthetic risk indicator, may not be a reliable indication of the Fund's future risk profile.

For a more detailed explanation of risks, please refer to the "Risk Factors" section of the prospectus.

CHARGES

One Off Fees

Entry Fees	Nil
Exit Fees	Nil
Switching Fees	Nil

Annual Fees

Annual Management Fees	100%
------------------------	------

Performance Fees

Performance Fee	Nil
-----------------	-----

These charges are used to pay the costs of running the Fund, including the costs of marketing and selling. Overall, they reduce the growth of your investment.

The entry and exit charges shown are the maximum figures. In some cases, you might pay less, you can find this out from your financial adviser. The ongoing charge shown is an estimate. This figure, which excludes portfolio transaction costs, may vary from year to year. You can find out more details about the charges by looking at the "Charges and Expenses" section of the Information Memorandum.
