

NABO KES FIXED INCOME FUND
Managed By Nabo Capital Limited

KEY INVESTOR INFORMATION DOCUMENT

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision and whether to invest.

OBJECTIVES AND INVESTMENT POLICY STATEMENT

Investment Objective

Investment Objective
To maximize total return and in the long-term achieve a higher return than the government bond markets in Kenya.

Investment Policy

The Sub- Fund will invest a minimum of 60% of the market value of its assets under management in fixed-income securities at all times. Any funds not invested in fixed income instruments shall only be invested in cash and cash equivalents.

RISK AND REWARD PROFILE

Why is this Fund in Category 3?

This fund invests primarily in Kenyan sovereign and corporate debt securities, which carry a risk of downgrade or default.

Investment in Kenya sovereign and corporate bonds is accompanied by higher risks including significant price fluctuation and an increased risk of capital loss, due to the political, interest rate and credit risks associated with investing in the asset class.

Non-Investment grade bonds are accompanied by higher risks, due to the greater balance sheet and credit risks associated with investing in the asset class, but they can also potentially enhance income and return for investors. Corporate bond prices can fluctuate significantly depending on not only the global and interest rate conditions but also the general credit market environment and credit worthiness of the issuer.

What do these numbers mean?

They rate how a fund might behave and how much risk there is to your capital. Generally, the chance to make large gains means a risk of suffering large losses.

A **Category 1** funds is not a risk-free investment – the risk of losing your money is small, but the chance of making gains is also limited. With a **Category 7** fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex (for example, 2 is not twice as risky as 1.)

More about this rating

This rating system is based on the average fluctuations of the prices of funds over the past 5 years, that is, by how much the value of their assets taken together has moved up and down. Historical data, such as used in calculating the synthetic risk indicator, may not be a reliable indication of the Fund's future risk profile.

For a more detailed explanation of risks, please refer to the "Risk Factors" section of the prospectus.

CHARGES

One Off Fees

Entry Fees	Nil
Exit Fees	Nil
Switching Fees	Nil

Annual Fees

Annual Advisory Management and Advisory Fees	2.00%
--	-------

Performance Fees

Performance Fee	Nil
-----------------	-----

These charges are used to pay the costs of running the Fund, including the costs of marketing and selling. Overall, they reduce the growth of your investment. The initial and redemption charges shown are the maximum figures. In some cases, you might pay less, you can find this out from your financial adviser.

The annual advisory management and advisory fee indicated is a fixed charge. This figure, which excludes portfolio transaction costs, may vary from year to year, as a result of trading activities. You can find out more details about the charges by looking at the "Charges and Expenses" section of the Information Memorandum.
